Avoid Unauthorized Commitments

Unauthorized commitment (UC) transactions are agreements made on behalf of the U.S. government by unauthorized personnel or in an unauthorized manner and are not binding. U.S. government funds may be committed only by properly appointed contracting officers and their designees, such as ordering officers and Government Purchase Card program cardholders.

A UC occurs most frequently with equipment rentals and information technology supplies and services. UCs involving the rental of equipment, for example, copiers, result when a unit fails to track the equipment contract expiration date or turn-in date and keeps the equipment beyond these dates; IT supplies and services are usually caused by poor planning, lack of coordination or failure to understand acquisition procedures.

When a UC occurs, a lengthy ratification process is required to properly obligate funds and pay the vendor. Vendors affected by payment delays may be reluctant to conduct further business with the U.S. government. In addition, the individual who made the UC could face disciplinary action and be held personally and financially liable. Personnel must understand that they do not have the authority to make commitments obligating U.S. government funds without a specific designation by a contracting officer. For more info call the Regional Contracting Office at 421-2455/civ. 0711-729-2455 or e-mail RybarczykM@6asg.army.mil.
